

II. AMENDMENTS TO CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

What is claimed:

Claim 1 (cancelled)

Claim 2 (currently amended): The golf accessory of claim 1 ~~6~~, further comprising a stroke counting device, ~~and wherein said the~~ stroke counting device is adapted to be mountable within ~~said the~~ caddy device.

Claim 3 (currently amended): The golf accessory of claim 2, wherein ~~said the~~ stroke counting device is substantially spherical in shape and of substantially the same dimensions as a golf ball.

Claim 4 (currently amended): The golf accessory of claim 2, wherein ~~said the~~ stroke counting device utilizes at least one of mechanical, electronic, and digital means for counting ~~said golf~~ strokes.

Claim 5 (currently amended): The golf accessory of claim 2, wherein ~~said the~~ stroke counting device further comprises at least one of a clock, compass, and calculator.

Claim 6 (currently amended): ~~The golf accessory of claim 1, wherein said base further comprises:~~ A multi-functional golf accessory comprising:

(a) a base adapted to receive a detachable caddy device, wherein the base includes external and internal storage means, and wherein the base further includes:

(~~a~~) (i) a front portion, and wherein ~~said the~~ front portion further comprises:

- (i) ~~a~~) at least one cup formed ~~in said front portion therein~~ for storing at least one of a golf ball and a stroke counting device;
- (ii) ~~b~~) a plurality of apertures formed ~~in said front portion therein~~ for storing at least one golf tee; and
- (b) (ii) a rear portion joined to ~~said the~~ front portion by hinge means, ~~and~~ wherein ~~said the~~ rear portion further comprises:
 - (i) ~~a~~) a substantially smooth exterior surface for providing a writing surface;
 - (ii) ~~b~~) a first clip means for holding a score card on ~~said the~~ writing surface;
 - (iii) ~~c~~) a second clip means for holding a golf pencil; and
 - (iv) ~~d~~) at least one storage compartment formed on the interior of ~~said the~~ rear portion of ~~said the~~ base; and
- (b) a caddy device adapted to be detachably mounted in the base, wherein the caddy device further includes a body adapted to receive a divot repair device, a detachable clip, at least one golf tee, and at least one of a golf ball and a stroke counting device.

Claim 7 (currently amended): The golf accessory of claim + 6, wherein ~~said the~~ base further comprises an attachment means for attaching ~~said the~~ base to a golf bag or ~~the like~~ other item.

Claim 8 (currently amended): The golf accessory of claim + 6, wherein ~~said the~~ caddy device further includes a stencil for marking a golf ball ~~or the like~~.

Claim 9 (currently amended): The golf accessory of claim + 6, wherein ~~said the~~ divot repair device further includes a top region and a bottom region, ~~and~~ wherein ~~said the~~ top region further comprises an aperture passing partially through the material ~~of said top region thereof~~, and wherein ~~said the~~ aperture is adapted to receive a removable golf ball marker.

Claim 10 (currently amended): A multi-functional accessory for golfers, comprising:
(a) a caddy device adapted to be detachably mountable in a separate base, and wherein said caddy device further comprises;

(b) wherein the caddy device is adapted to be detachably mountable in a separate base, and wherein the caddy device further includes:

(i) a contoured, elongated body adapted to receive a divot repair device, a detachable belt clip, at least one golf tee, and at least one of a golf ball and a stroke-counting device. , wherein the body further includes:

a) a cup for storing a golf ball, wherein the cup further includes a plurality of clasps formed on the perimeter thereof for retaining the golf ball therein, and a stencil for creating identifying marks on the golf ball when the golf ball is stored in the cup;

b) a recess formed therein for receiving a divot repair device; and

c) a first retaining member for holding a first golf tee and a second retaining member for holding a second golf tee; and

(ii) a divot repair device, wherein the divot repair device is adapted to be removeably inserted into the recess and stored therein until use, and wherein the divot repair device further includes:

a) an elongated bottom portion, wherein the bottom portion further includes two prongs each ending in a pointed tip; and

b) a rounded upper portion, wherein the upper portion further includes: first and second horns formed on the top edge thereof for retaining a golf club therebetween, an aperture formed centrally therein, and first and second ridges formed near the aperture; and

(iii) a ball marker, wherein the ball marker is adapted to be completely inserted into and removeably stored within the aperture formed in the divot repair device,

and wherein the first and second ridges retain the ball marker within the aperture when the ball marker is stored therein; and
(iv) a clip, wherein the clip is adapted to be removeably inserted into the body.

Claims 11-18 (cancelled)

19 (currently amended): The golf accessory of claim 48 10, wherein said the ball marker is a coin, and wherein said the coin is a dime.

Claim 20 (cancelled)
